FEATURES

The side stations are height adjustable with a maximum height of 37" and minimum height at 24.25" from the ground.

Each adjustable side station offers +9°/-15° of tilt for additional custom positioning.

The FlexTable is highly mobile and can be held in place with locking casters.

Table Laminate Colors

Sterling Ash

Wild Cherry

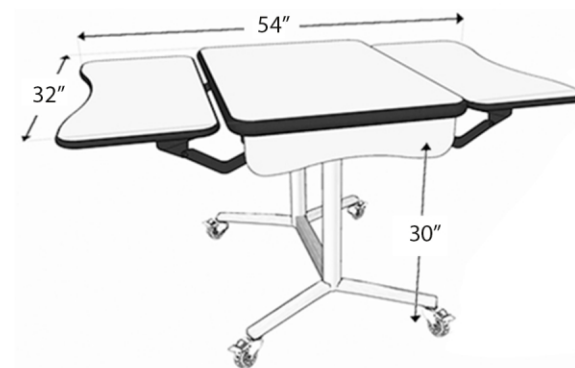

Sprout

Blue Agave

Table Measurements

People come in all different shapes and sizes.

Now, there is one table where everyone can come together.

The FlexTable is designed to accommodate a variety of individuals with different seating needs so that they can eat, work, or play together, each at his or her own preferred table height. Each side station is independently height adjustable and can be tilted to accommodate desired angles.

ACCESSORIES

Two or more FlexTables can be easily connected with Joining Bands for extended length. Joining Bands are available separately.
