

# Now Accepting Referrals

The Center for Discovery's **Children's Specialty Hospital**, located in Rock Hill, New York, is a place where families across New York State can turn for the **treatment of medical conditions in those with complex disabilities, including autism** and other developmental disabilities.

The Specialty Hospital is designed for children **ages 5-21 who have developmental disabilities**. All children admitted for treatment must meet OPWDD eligibility requirements and have a **medical condition** that requires medical services from health care staff.

The Children's Specialty Hospital will provide **inpatient treatment** and conduct comprehensive medical, behavioral, and clinical assessments over a maximum of six months. Through a collaborative approach, this program is designed to **help children and adolescents thrive at home, in school, and remain integrated in the community**.

**To submit a referral or ask a question, please contact: [Admissions@tcfd.org](mailto:Admissions@tcfd.org)**
